RE: Phase 22 DRE Budget - Esplanade @ Sommers Bend

The Phase 22 budget reflects a total of 259 units annexed into the Association effective January 1, 2024 with a regular assessment of \$212.00. The following phases were annexed into Esplanade at Sommers Bend Community Association:

Effective Date: January 1, 2024

Product/ Phase	Builder Residential Lots		# of Units	Common Area Lots	
Arise – Ph. 15	Taylor Morrison	5-7, 9	4	Port. Lot 9	
Weston - Ph. 17	Taylor Morrison	1-4, 8	5	Port. Lots 1, 8	

As new phases are annexed into the Association, Seabreeze Management Company will be distributing the current budget to the Community Manager and the Declarant for review and distribution as necessary.

Should you have any questions regarding the budget, please contact me at (949) 672-9024 or Brandon. Tryon@seabreezemgmt.com.

BUDGET WORKSHEET

RE Form 623 (Rev. 4/18)

GENERAL INFORMATION

This Budget is a good faith estimate from plans prior to construction and/or completion (for new projects) or from a combination of plans and/or site inspections (for existing projects). For existing projects, there may have been historical data as support for some line items, but changes to the project may make historical data not applicable or reliable. The budget was prepared for the purpose of obtaining a public report.

The association must adopt a budget in accordance with the California Civil Code. If that budget is less than 10% or greater than 20% from the budget, you should contact the Department of Real Estate. The association may increase or decrease its budget. It is typical for costs to increase as the project ages. The association should conduct a reserve study after its first year of operation to adjust the reserve funding plan for any changes which may have taken place during construction.

IMPROVEMENTS WORKSHEET

If this phase will have any line items shown on pages 3, 4 and 5 hereof exempted from payment of assessments under Regulation 2792.16(c), asterisk those items on pages 3, 4 and 5 and list any partially deferred costs on a separate sheet showing calculations and attach. All exempted improvements must be covered by reasonable arrangements for completion. Included Planned Construction Statement (RE 611A) for review.

1.	Number of buildings containing residential units.	N/A
2.	Completion date for the residential units included in this phase.	January-24
3.	Completion date for the common area and facilities included in this phase.	January-24
4.	Type of residential building for this project.	Single Family Detached
5.	Type of construction for these buildings (i.e., steel, concrete, wood frame, etc.).	Wood Frame, Stucco, Concrete, etc
6.	Type of roof (i.e., shake, etc.).	Concrete Tile
7.	Type of paving used in this project.	Asphalt, Concrete, Pavers
8.	Type of exterior wall for residential buildings.	Stucco
9.	Number of residential units per building.	N/A
10.	Number of floors per building.	N/A
11.	Number of bedrooms per unit.	N/A
12.	Square footage of units.	N/A
	(list number and size of each unit type)	
13.	Type of parking facilities and number of spaces	Attached
	(i.e., tuck-under, subterranean, carport, open, etc.).

NOTES:

1. DRE regulations allow for the use of variable assessments against units only if one unit will derive as much as 10 percent more than another unit in the value of common goods and services supplied by the association.

The budget and management documents indicate (check appropriate box)

- Equal Assessments
- Variable Assessments

- 2. The inventory and quantities used in the preparation of this budget are normally derived from plans completed prior to construction and may vary slightly from actual field conditions. The calculated budget is a good faith estimate of the projected costs and should be deemed reliable for no more than one year. The Board of Directors should conduct an annual review of the Association's actual costs and revise the budget accordingly.
- * Depending on the level of service selected by the Association, the amount shown may be insufficient to cover the cost and may be higher.

PAINTING WORKSHEET

EXTERIOR

Exterior painting area is determined by measuring the structure to find the perimeter (total distance around) and multiplying that by 10' for each story. Use a separate line for each story if the configuration of the building changes from story to story.
