RE:	Phase 18 DRE Budget – Esplanade @ Sommers Bend

The Phase 18 budget reflects a total of 211 units annexed into the Association effective July 1, 2023 with a regular assessment of \$250.00. The following phases were annexed into Esplanade at Sommers Bend Community Association:

#### Effective Date: July 1, 2023

Product/ Phase	Builder	Residential Lots	# of Units	Common Area Lots
Weston – Ph. 14	Taylor Morrison	5-10, 32-34	9	N/A

As new phases are annexed into the Association, Seabreeze Management Company will be distributing the current budget to the Community Manager and the Declarant for review and distribution as necessary.

Should you have any questions regarding the budget, please contact me at (949) 672-9024 or Brandon.Tryon@seabreezemgmt.com.

NOTES:

1. DRE regulations allow for the use of variable assessments against units only if one unit will derive much as 10 percent more than another unit in the value of common goods and services supplied by the association.

The budget and management documents indicate (check appropriate box)

- Equal Assessments
- Variable Assessments

- 2. The inventory and quantities used in the preparation of this budget are normally derived from plans completed prior to construction and may vary slightly from actual field conditions. The calculated budget is a good faith estimate of the projected costs and should be deemed reliable for no more than one year. The Board of Directors should conduct an annual review of the Association's actual costs and revise the budget accordingly.
- \* Depending on the level of service selected by the Association, the amount shown may be insufficient to cover the cost and may be higher.

#### NOTES:

- 1. Do not include leased lights. Instead use lease agreement with rate schedule with budget work sheet. Put monthly charge in Item 201 leased lights. Use a minimum of 10 hours per day average usage for exterior lighting.
- Motors are found in swimming pool pumping systems, circulating hot water systems, ventilation systems in subterranean garages, security gates, interior hallways, and interior stairwells and also in private water systems and fountains. (Hours of use for pool pumps - see Item 201 in the Cost Manual.)
- Normally 1,000 watts per horsepower should be used. Check plate on motor or manufacturer's specifications. If wattage is not listed, it can be calculated by multiplying amps x volts.

#### NOTES:

- Average usage is four-acre feet of water per acre of landscaping per year. This formula is based on four-acre feet of usage. Some areas like the low desert will require 8 to 12-acre feet of water per acre of landscaping per year and the "B" figure should be adjusted accordingly. (Example: 4 x figure for B = 12-acre feet.)
- 2. If some other method of billing is used for the sewage charge and/or this will not be a common expense, provide a letter from the sanitation district and/or water company (whichever applicable) which so states.
